Default Question Block

Thank you so much for your contribution to ManyBabies1: Infant-directed speech preference! Below are some questions that will help ensure that your information is correctly in the analysis pipeline, and as a last procedural check. We are also taking the opportunity to get your feedback on the process. This was the project of its type, and it's important for us to understand what went well and what we can improve on.

If you have any additional comments and suggestions later on, do not hesitate to get in touch. You can reach Christina Bergmann at chbergma@gmail.com. You can also contact us via Slack.

Please indicate your laboratory code (e.g. bll-umanitoba). This is important to match you with your data files and other questionnaires.

Name of person filling out the form

Please provide a current contact email for your laboratory (i.e. the person we should talk to if we have questions about your data)

Have you submitted your

☐ Participants Data Spreadsheet

☐ Trials Data Spreadsheet

☐ Ethics Approval

☐ Walk-through video

☐ Demographics Questionnaire (if different from the one provided)

If you have videos of your ManyBabies participants on Databrary (available to other researchers, not just for your lab-internal use), please indicate the volume name. Note that for ease of finding the ManyBabies-related volumes, we request your volume name be of the form: **ManyBabies 1: bll-umanitoba** (replace bll-umanitoba with your own lab code).

If you have any other data from your study that you have shared in some form (e.g. in the Drive folders) that isn't described above, please describe and indicate its location here:

Did you submit one or more Protocol Change Forms?

◯ Yes

◯ No

Did you make any substantive changes to your protocol not reported in a Protocol Change Form? If so, please describe them here.

Are you still collecting ManyBabies1-related data for

☐ The test-retest follow-up study?

☐ The CDI follow-up study?

☐ Other?

On a scale of 1 (not at all) - 7 (exclusively), to what extent does your lab study language development?

On a scale of 1 (not at all) to 7 (completely), and considering participant age, experimental set-up, etc., to what extent was this study a new METHODOLOGICAL approach for you?

Block 1

The remaining questions are optional, but would greatly help us in learning what went well, and what we can do differently, as well as identifying potential weaknesses in the project.

How would you rate the overall experience of participating in ManyBabies1?

◯ Excellent

◯ Good

◯ Average

◯ Poor

◯ Terrible

Did practices in your lab / your own research change since you started participating in ManyBabies? (For example, did you start preregistering analyses or sharing stimuli?)

○ Yes

○ Maybe a little

○ No

Please select all that apply:

☐ Open materials (stimuli, procedures, scripts to create materials)

☐ Open data (sharing anonymized data)

☐ Open analyses (sharing scripts to re-run analyses)

☐ Use of OSF

☐ Sharing video data on Databrary

☐ A priori power calculations

☐ Preregistration before data collection

☐ Submitting registered reports

☐ Other, please explain:

Were communication, documentation, and options for getting further information clear to you?

○ Very clear

○ Somewhat clear

○ Neither clear nor unclear

○ Somewhat unclear

○ Very unclear

What can be done to improve communications and documentation?

Did you experience any problems during set-up and/or while running the study?

○ Yes

○ No

Please briefly describe the problem, and whether the problem was ultimately resolved to your satisfaction.

Did you use Slack and/or personal email to get further information and/or help when needed?

○ Yes

○ No

Were you satisfied with the responses?

○ Extremely satisfied

○ Somewhat satisfied

○ Neither satisfied nor dissatisfied

○ Somewhat dissatisfied

○ Extremely dissatisfied

Who tested the participants in your ManyBabies1 sample? (Check all that apply)

☐ Primary Investigator/Lab Director

☐ Postdoctoral researcher

☐ Graduate Student

☐ Undergraduate Research Assistant

☐ Other (please specify)

When was the last participant tested in your lab? (mm/dd/yyyy)

If you had been solely in charge of decision-making for ManyBabies1, is there anything you would have done differently (e.g. stimuli, procedures, etc.)?

○ Yes

○ Maybe

○ No

Please describe what you would have done differently.

Do you think this impacts the validity of ManyBabies1's findings?

- ○ Definitely yes

- ○ Probably yes

- ○ Might or might not

- ○ Probably not

- ○ Definitely not

Do you have any other comments or feedback? We welcome any other thoughts you have about the ManyBabies project.
